

Field Trips

Take a trip! Discover the world of equine assisted activities through hands-on interaction with horses and ponies. Try your hand at carriage driving, grooming or riding!

High Hopes will create a unique experience tailored to meet the needs of school and university classes, senior groups or club outing on our 120 acre farm with our herd of 27 horses. Groups may bring their own snacks or lunch to enjoy in our picnic area.

Mounted Equine Experience:

Our mounted experience includes a riding, carriage driving or interactive vaulting session, followed by un-tacking and caring for the horses. For groups of more than 5 participants, this may be done in a rotation with one group mounted while the other groups participate in an un-mounted horsemanship activity. Cost: \$50/participant for a group of up to 12 participants.

Unmounted Horsemanship:

An unmounted experience provides an introduction to therapy horses and equine assisted activities. Participants may learn parts of the horse, grooming and care of the horse and basic stable management. They will enjoy hands-on interaction with our horses in a safe and supportive environment. Cost: \$75 for a group of up to 12 participants.

Educational Field Trip:

Enjoy a tour of our PATH International Premier Accredited Center and learn about equine assisted activities and therapies. This opportunity is ideal for aspiring professionals, community outreach clubs and anyone interested in learning about running a therapeutic riding center and non-profit business. Cost: \$50/hour

— Perfect for children & adults alike —
